

KAUST, the Red Sea Research Center, and the Coral Reef Ecology Lab

Presented by: Michael Berumen
Assoc. Prof. of Marine Science and Engineering

KAUST offers full fellowships for MSc and PhD studies in several science and engineering fields

Set on the shore of the Red Sea, KAUST has an ideal combination of world-class laboratory facilities with renowned Red Sea coral reefs

Prof. Berumen will discuss opportunities for students interested in marine science, coral reef ecology, and any other field at KAUST
